DESORAY® DA3106

Major component

• Acrylic Polymer

Property

• Ultra fine particle size,excellent permeability and adhesion,cold resistance.
• Ideal full grain filling resin.
• It can significantly reduce the loose surface and has little effect on the feel of leather.
• It can also be used as primer resin to enhance the adhesion of the coating.

Specification

Appearance(25°C):	Yellowish translucent liquid
Solid Content, %:	22.0±2.0
pH(10.0% aqueous solution, 25°C):	8.0±1.0
Ionicity:	Anionic

Application

• It has ultra fine particle size, excellent permeability and adhesion. It can be widely used for all kinds of leather filling,especially for full grain.After filling the grain surface without conjunctival, natural appearance. It can significantly reduce the loose surface and has little effect on the feel of leather.
• **DESORAY DA3106** can also be used as primer resin to enhance the adhesion of the coating.

Safety

• This is not a hazardous chemical.
• Observe all the precautions required for handling chemicals.
• Read attentively and observe all the recommendations in our **Safety Data Sheet**.

The information contained in this manual is not a unilateral commitment by our company or a contractual provision. Users are responsible for confirming product suitability under actual conditions.

DESORAY® DA3106

Transportation and Storage

- The product has a shelf life of one year if it is stored in its tightly sealed original packaging at temperatures between 5°C and 35°C.
- The product should be stored in a cool and dry place, lidded and keep upright. Avoid direct exposure to the sun or frost.
- Re-seal the package immediately after using, use up as soon as possible once the package is opened.
- Read attentively and observe all the recommendations in our **Safety Data Sheet**.
